

From Millerville.

February 6.—We are all in winter quarters with snow about four inches deep and thermometers dipping to zero or below and if we see anybody out doors they are on a run to some place where there is a probability of a well heated stove or fire place, consequently news items are all on the wing and hard to capture and what we get has to be rounded up by guessing at what our reporters lack in giving particulars.

A few things we can guess with tolerable accuracy, which in part is that wood piles, hay mows and corn heaps are growing beautifully less every day, and rabbits are getting scarce. We could get them by the dozen when the first snow fell but now they are not to be had at any price.

Married, by Esquire George W. Miller, on last Sunday, at the residence of James Runnels, Thomas Strong and Mrs. Roena Barks. Also on the same day at the residence of the bride's parents, Mr. and Mrs. Peter Niswanger, Albert Riehn and Miss Shaba Niswanger were married.

The boys of the neighborhood treated Mr. and Mrs. Strong with a nice little charivari, to which Mr. Strong responded with a gallon of corn juice, of which I am pleased to learn the boys partook with due regard to temperance, and all retired quietly with good wishes for the future welfare of Mr. and Mrs. Strong.

We are sorry to learn that Mrs. James Runnels, who has been afflicted for several months with partial paralysis, is still almost entirely helpless.

Mrs. Jane McLain, who has been bedfast for several weeks with stomach diseases, seems now on the road to health.

The old Salem school, taught by Tilden Niswanger, closed last week with a nice entertainment on Saturday night. A wagon loaded with about eleven of Millerville's young folks drove over to witness the performance, and give a favorable report thereof.

A man by name of Mr. Blount, who is connected with a stove factory near Mrs. Moore's on Big Whitewater, eloped with Mrs. Ed Walker on last Saturday night a week ago, leaving Mr. Walker to take care of four children under five years old and Mrs. Blount with three also of tender age.

Several of our citizens went to hear Mr. Osborn's lectures last week, and while they report the proceeding somewhat novel and interesting they don't seem to think the lecture threw any light upon the minds of sincere believers of spiritualism. However, I would favor discussion along these lines as a stimulant to thought, yet the old rhyme, "Convince a man against his will, he'll be of the same opinion still," is the result in most cases.

BILIOUSNESS AND CONSTIPATION CURED BY THEDFORD'S BLACK-DRAUGHT

Because the liver is neglected people suffer with constipation, biliousness, headaches and fevers. Colds attack the lungs and contagious diseases take hold of the system. It is safe to say that if the liver were always kept in proper working order, illness would be almost unknown. Thedford's Black-Draught is so successful in curing such sickness because it is without a rival as a liver regulator. This great family medicine is not a strong and drastic drug, but a mild and healthful laxative that cures constipation and may be taken by a mere child without possible harm.

The healthful action on the liver cures biliousness. It has an invigorating effect on the kidneys. Because the liver and kidneys do not work regularly, the poisonous acids along with the waste from the bowels get back into the blood and virulent contagion results.

Timely treatment with Thedford's Black-Draught removes the dangers which lurk in constipation, liver and kidney troubles, and will positively forestall the inroads of Bright's disease, for which disease in advanced stages there is no cure. Ask your dealer for a 25c. package of Thedford's Black-Draught.

For Distribution.

There are now in the county clerk's office in Jackson, Mo., a number of copies of the book, "The State of Missouri"—one for each district in the county having a school library.

It is a valuable book of reference for the schools and contains information that cannot be found elsewhere.

District clerks or any officer authorized by the school board may obtain one of these books for the school library by calling at the county clerk's office and receipting for same.

If any district not now having a library will provide for it and make the order before the supply of these books is exhausted, it will get a copy. C. A. MACOM, County School Superintendent.

A Touching Story

Is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months our little girl was in declining health with serious throat trouble, and two physicians gave her up. We were almost in despair, when we tried Dr. King's New Discovery for Consumption, Coughs and Colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. 50c and \$1 guaranteed. Trial bottle free. For sale by DR. S. E. WOODS, the druggist.

The Fraternal Order of Colonials.

A Fraternal Beneficiary Society Organized Under the Laws of the State of Missouri.

Reserve Fund Created From Inception of the Order.

Objects of the Order.

The purpose of this organization is to unite in a fraternal body all white male persons of good moral character, between the ages of 18 and 50 years, who can pass the necessary medical examination, and who are not engaged in hazardous occupations.

Government.

The members of the Order are united into Local Assemblies, and are governed by a Supreme Assembly of 25 members elected by all the members of the Order every four years. The laws enacted by the Supreme Assembly are applied by the Supreme Executive Committee consisting of the six Supreme Officers of the Order, and by a Supreme Auditing Committee of three representative business men.

Plan of Operation.

The amount of money the beneficiaries of a member receive at his death depends upon the period of membership. If death occurs during the first year of membership the Order pays \$200 on each \$1000 named in the beneficiary certificate; if death occurs during the second year the payment is \$400 on each \$1000; if death occurs during the third year the payment is \$600 on each \$1000; if death occurs during the fourth year the payment is \$800 on each \$1000; but if death does not occur until the fifth or later year of membership, the Order pays, not only the full face of the certificate, but in addition thereto all assessments paid thereon, less \$150 for each \$1000 named in the certificate.

Application of Assessments.

Out of every monthly assessment paid by each member, 80% per cent. thereof is applied to maintaining the Order and paying death losses. The full and prompt payment of every death claim is guaranteed by the Reserve Fund of the Order. The Reserve Fund is created, first, by 13% per cent. of each and every assessment paid by every member; second, by all deductions from the certificates of members whose deaths occur after more than four full years of membership.

bership. The double stream of revenue flowing into this fund creates a percentage of Reserve not surpassed by any Fraternal Order in existence.

Ritual.

It is the aim of the Order to afford its members an equitable, business-like, and economical plan of protection, founded upon the past experience of the life insurance world. But it is at the same time a social organization. It has a beautiful Ritualistic work that is pleasing and instructive.

Expense.

The membership fee is \$5.00. This includes the cost of medical examination. Benefit certificates are issued for \$1000 or \$2000 on each member for himself may elect. The assessments are 75 cents per month on each \$1000. Each Local Assembly fixes a small monthly payment for local dues to meet such expenses as it may incur. The payments each month are the same, and all members pay alike. Assessments are not graded according to the ages of the members, but the money paid out at the death of each member is equalized according to his period of membership.
